## PERSONAL DETAILS

Nationality : Rwandan  
Gender : Male  
Driving Licence : B

## SKILLS

Programming Languages: Proficient in Java, Python, and JavaScript  
Development Tools & Technologies: Experienced with Git, various IDEs (e.g., Eclipse, Visual Studio Code), and debugging tools.  
Software Development: Strong understanding of data structures, algorithms, and software development life cycle  
Problem-Solving: Excellent analytical and problem-solving abilities  
Communication: Strong verbal and written communication skills  
Teamwork: Proven ability to work effectively in team environments  
Adaptability: Quick learner with a keen interest in adopting new technologies and methodologies.

I built a project by using Python and JavaScript, emphasizing clean, efficient code and responsive design. Collaborated with peers to define project requirements. Implemented version control using Git, facilitating team collaboration and code provided tutoring in Java and Python to first-year computer science students, improving their programming skills and academic performance. Prepared and reviewed coding exercises, promoting the application of computer science fundamentals.

Excellent communication skills, both technical and non-technical, for effective collaboration

## REFERENCE

## OBJECTIVE

Enthusiastic and dedicated Computer Science student with a strong foundation in software development principles, seeking to apply my programming expertise and collaborative skills as a Software Engineering Intern at Irembo. Eager to contribute to the MSD project through innovative coding, problem-solving, and continuous learning. To leverage my technical skills and passion for coding to contribute to innovative software solutions, while continuously expanding my knowledge in a dynamic . This objective highlights skills, enthusiasm, and willingness to learn.

## EXPERIENCE

- Andela  
#Frontend Developer (Andela program)
